Prve godine maraton je bio deo IPA projekta: "Održivi razvoj biciklizma", koji je proglašen za najbolji projekat prekogranične saradnje u 2012. godini, i finansiran je od strane EU.

Cilj organizacije maratona je sportsko-turistički tj. pored propagiranja biciklizma kao sporta, prevoznog sredstva i zdravog načina života, maraton promoviše i turističke i kulturne potencijale dve zemlje. Maraton prolazi kroz brdsko-planinske predele, obilazeći pri tom turističke centre, kao i kulturne i druge znamenitosti na tim teritorijama.

# KRALJEVO

Grad Kraljevo se nalazi u centralnom delu Srbije, 172 km južno od Beograda i zauzima prostor oko donjeg toka reke Ibar i srednjeg dela toka reke Zapadna Morava.

Grad se nalazi na nadmorskoj visini od 203 - 208m. Predstavlja administrativni, privredni, prosvetni, kulturni, zdravstveni i politički centar Raškog okruga. Istovremeno je i značajan saobraćajni centar ovog dela Srbije, s obzirom da se u njemu ukrštaju važne putne i železničke saobraćajnice.

Kraljevo danas ima oko 120 000 stanovnika.

Teritorija grada Kraljeva predstavlja kolevku srpske države i kulture. U ovoj oblasti je u srednjem veku bilo jezgro srpske države Raške, kojom je vladala svetorodna dinastija Nemanjića. Iz tog perioda, u živopisnoj Ibarskoj klisuri, koju nazivaju „Dolina vekova“, sačuvani su spomenici neprocenjive vrednosti: manastir Žiča, Studenica (pod zaštitom UNESCO-a), Gradac i srednjevekovni grad Maglič.

Osim bogatog kulturno - istorijskog nasleđa, Kraljevo ima izuzetne prirodne potencijale za razvoj svih vidova turizma: zdravstvenog, sportsko - rekreativnog, seoskog, zimskog, lovno - ribolovnog i dr.

*The City of Kraljevo is situated in the central part of Serbia, 172 km south of Belgrade and it occupies the area around the lower flow of the Ibar river and the middle part of the West Morava river flow.*

*The City is located at the altitude of 203-208 m. Kraljevo is an administrative, economic, educational, cultural, health and political centre of the Raska district. At the same time, it is a significant traffic centre of this part of Serbia, considering the fact that many important roads and railroads intersect here.*

*Today, Kraljevo has around 120000 citizens.*

*The territory of the City of Kraljevo is a cradle of Serbian state and culture. In the Middle Ages, this area was the centre of the Serbian state of Raska, which was ruled by the holy dynasty of Nemanjic. In the picturesque Ibar gorge, also called "The Valley of Centuries", many invaluable monuments have been preserved from that period, among which the monasteries Zica, Studenica (protected by UNESCO), Gradac and the medieval town of Maglic.*

*Apart from the rich cultural-historical heritage, Kraljevo also has the exquisite natural potentials for the development of all types of tourism: healthcare, recreational, rural, winter, hunting, fishing tourism and many others.*

# TOPOLA

Topola je gradić u centralnoj šumadijskoj regiji, nastao na desnoj strani rečice Kamenice, gde je postojalo veliko i razgranato drvo topole, pod čijom su krošnjom mesto za predah i odmor nalazili trgovci i putnici namernici. Smeštena je na obroncima brda Oplenac.

Sagrađivši u Topoli utvrđeni grad i porodičnu kuću, veliki srpski vožd Đorđe Petrović - Karađorđe je postavio temelje kako bi njegovi potomci odmale varoši načinili mesto kraljevskog sjaja i nastavili tradiciju srpskog zadužbinarstva.

Na vrhu Malog Oplenca, na nadmorskoj visini od 347 metara, uzdiže se Crkva svetog Đorđa i Mauzolej kraljevske porodice Karađorđević, okružen čuvenim Oplenačkim vinogradima.

Idealna kombinacija plodnog zemljišta, kvalitetnih sorti grožđa i tradicionalnih recepata, čine da Oplenačka vina po kvalitetu budu na svetskoj vinskoj listi. Oplenačka vina imaju zaštićeno geografsko poreklo.

Svake godine, drugog vikenda u oktobru još od 1962. godine u Topoli se u čast vina i grožđa održava tradicionalna privredno-turistička manifestacija Oplenačka berba. Tih oktobarskih dana Topola postaje mesto u koje se sa svih strana „sliju“ desetine hiljada turista i posetilaca koji tri dana slave berbu grožđa i degustiraju nadaleko čuvena oplenačka vina.

*Topola is a small town in central Šumadija which was founded on the right side of the small river Kamenica.*

*The town of Topola is situated on the slopes of hill Oplenac. When Karađorđe built his fortified town and a family house in Topola, he has laid a foundation for future town of royal splendor which will be built by his descendants.*

*The church of St. George is situated on the top of little Oplenac on 347 m high. This white five domed church of so phisticated forms and materials was built in Serbian-Bizantine style, surrounded by the famous Oplenac vineyards.*

*The ideal combination of fertile soil, high-quality grape varieties and traditional recipes make the quality of Oplenac wines to be on the world wine list. Oplenac wines have a protected geographical origin.*

*Every year in Topola, on the second weekend in October since 1962, in honor of wine and grape traditional economic and tourist event Oplenac Vintage takes place. In those October days Topola becomes a meeting place for tens of thousands of tourists and visitors who celebrate for 3 days the grape harvest and enjoy the famous Oplenac wines.*

## RUDNIK

**Gornji Milanovac** je mlado gradsko naselje u jugozapadnoj Šumadiji, u podnožju planine Rudnik. Osnovan je 1853. godine, izmeštanjem varoši Brusnica, po ukazu kneza Aleksandra Karađorđevića. Naselje je tada dobilo ime Despotovica, po reci koja kroz njega protiče. Povratkom na kneževski presto, Miloš Obrenović, posebnim ukazom iz 1859. godine, menja ime naselja u Gornji Milanovac, u znak sećanja na svog polubrata, vojvodu Milana Obrenovića.

**Rudnik** je najviša planina Šumadije (Cvijičev vrh, 1.132 m) i nalazi se u njenom zapadnom delu. Imenom Rudnik nazvan je zbog rude olova i cinka koje se i danas eksploatišu. Predstavlja čvorište između slivova Zapadne Morave, Velike Morave i Kolubare. Rudnik je najsevernija vulkanska oblast u centralnoj Srbiji, a ostaci vulkanizma su приметni na pojedinim delovima i po karakteristikama stenskih masa koje ga izgrađuju.

Planina Rudnik se nalazi 100 km južno od Beograda i 15 km od Gornjeg Milanovca. Varošica Rudnik smeštena je između 500 i 700 metara nadmorske visine i sa ostalim delovima planine povezana je asfaltnim putem i velikim brojem staza. Zbog izuzetnih klimatskih uslova (velika osunčanost tokom godine, vazдушna strujanja, visoka jonizacija vazduha) planina je još 1922. godine proglašena za vazдушnu banju.

***Gornji Milanovac** is a town at the foot of the Mountain Rudnik in the southwestern Sumadija. It was built in 1853. by the decree of Knez Aleksandar Karađordjevic. The settlement was relocated from village Brusnica to a place called "Divlje polje". The new settlement was called Despotovica, after the river which runs through the municipality. When Milos Obrenovic returned to the throne, he changed the name of town in Gornji Milanovac in the memory of his elder brother Milan Obrenovic in 1859.*

***The mountain Rudnik** is located 100 km south of Belgrade and 15 km from Gornji Milanovac. Rudnik is the highest mountain in central Serbia with the highest peak Cvijicev vrh (1132m above sea level) called after geologist and biologist Jovan Cvijic. The Rudnik mountain is the northern most volcanic region in central Serbia, and the remains of volcanism are noticeable in some parts and according to the characteristics of the rock masses that it is building.*

*Rudnik literally means mine as the mountain is rich in mining resources. Due to the exceptional climatic conditions air the mountains were declared to be an air spa in 1922.*

# Ljig RAJAC

Rajac predstavlja jednu od najatraktivnijih u kompleksu Valjevskih planina. Priroda je raskošno darovala ovaj prostor izvanrednom lepotom, specifičnim oblicima reljefa, interesantnim hidrografskim elementima, karakterističnim živim svetom, velikim brojem i raznovrsnošću biljnih vrsta. Stari putopisici su ga zbog lepote prirode nazvali "rajem na zemlji".

Vodopad Crkvine je jedno od najlepših mesta na Rajcu. Posetioci kažu da i ako je staza do vodopada uska i strma, uživanje nije manje u lepoti vodopada i prirodi koja ga okružuje.

U Slavkovici se nalazi srednjovekovni manastir posvećen Vavedenju Presvete Bogorodice. Njegovo podizanje veže se za kraj 13. i početak 14. veka. Uz prvobitnu građevinu, dozidana je kapela u kome su smeštena dva kamena sarkofaga, vekovima se prenosi predanje da u sarkofazima počivaju despot Đurađ Branković, njegova supruga Irina Kantakuzin (u narodu nepravedno nazvana prokleta Jerina), i njihov sin despot Lazar.

Manifestacije koje se održavaju na Rajcu su: Zlatna rajačka lisica (januar), Sretenjski pohod (februar),- Memorijal Čika Duško Jovanović (april), Festival zmajeva (maj), Kosidba na Rajcu (jul), Dan čistih planina na Rajcu (septembar)

*Rajac is one of the most attractive mountains within the complex of Valjevo's mountains. Nature was very generous to this area providing it the specific forms of relief, interesting hydrographic elements, characteristic wildlife, various and numerous plant species. Due to its exceptional beauty, old travelers named Rajac as "Paradise on the Earth". In Serbian language the word „paradise" means „raj". Therefore, it is also a wordplay.*

*There are favorable conditions for cycling on the Rajac. Mountaineering Club Pobeda have organized cycling race within an event Days of Clean Mountains. The route is diversified and partly very demanding.*

*It passes through meadows and forests of Rajac in total length of 7130 m. The path is characterized by rapid routes, medium demanding ascents and a couple of demanding descents. The track can be divided into several parts depending on the type of the ground and terrain – from rapid routes to the rocky and dangerous descents.*

*In the Slavkovica village, there are remains of the monastery with a church from the end of 13th and first decades of 14 h century, as well as necropolis comprised of more than hundred graves, strangely constructed for Serbia in that period. What particularly attracted the attention of researchers, were two monumental stone sarcophagi (the third was devastated). Dimitrije Madas in his book named*

**Koštunići** su se ugnezдили u jednom od najlepših krajeva Srbije, na južnoj padini planine Suvobor, u delu rudničko-takovske nahije, pored puta Čačak-Valjevo i Gornji Milanovac – Požega.

Postoje dve priče kako je selo dobilo ime i niko ne zna da kaže koja je prava, valjda zato što jedna govori o prirodi, druga o ljudima. A vama našim dragim gostima poručujemo – ovde ljudi čuvaju i vole prirodu! Nad Koštunićima se nalazi Ravna Gora, mesto poznatih istorijskih zbivanja, sačuvano u svojoj iskonskoj lepoti.
