Sa druge strane, u svetu planinskog biciklizma, MTBC "Čiker" je poznat i po organizovanju višednevnih rekreativnih tura. Od 2012. godine MTBC "Čiker", u saradnji sa turističkim organizacijama iz Srbije i Crne Gore, organizuje "ČikerMTB maraton" čija trasa kreće iz Kraljeva i završava se u nekom od gradova u Crnoj Gori. Prve godine maraton je bio deo IPA projekta: "Održivi razvoj biciklizma", koji je proglašen za najbolji projekat prekogranične saradnje u 2012. godini, i finansiran je od strane EU.

Cilj organizacije maratona je sportsko-turistički tj. pored propagiranja biciklizma kao sporta, prevoznog sredstva i zdravog načina života, maraton promoviše i turističke i kulturne potencijale dve zemlje. Maraton prolazi kroz brdsko-planinske predele, obilazeći pri tom turističke centre, kao i kulturne i druge znamenitosti na tim teritorijama.

KRALJEVO

Grad Kraljevo se nalazi u centralnom delu Srbije, 172 km južno od Beograda i zauzima prostor oko donjeg toka reke Ibar i srednjeg dela toka reke Zapadna Morava.

Grad se nalazi na nadmorskoj visini od 203 - 208m. Predstavlja administrativni, privredni, prosvetni, kulturni, zdravstveni i politički centar Raškog okruga. Istovremeno je i značajan saobraćajni centar ovog dela Srbije, s obzirom da se u njemu ukrštaju važne putne i železničke saobraćajnice.

Kraljevo danas ima oko 120 000 stanovnika.

Teritorija grada Kraljeva predstavlja kolevku srpske države i kulture. U ovoj oblasti je u srednjem veku bilo jezgro srpske države Raške, kojom je vladala svetorodna dinastija Nemanjića. Iz tog perioda, u živopisnoj Ibarskoj klisuri, koju nazivaju „Dolina vekova“, sačuvani su spomenici neprocenjive vrednosti: manastir Žiča, Studenica (pod zaštitom UNESCO-a), Gradac i srednjevekovni grad Maglič.

Osim bogatog kulturno - istorijskog nasleđa, Kraljevo ima izuzetne prirodne potencijale za razvoj svih vidova turizma: zdravstvenog, sportsko - rekreativnog, seoskog, zimskog, lovno - ribolovnog i dr.

KRALJEVO

The City of Kraljevo is situated in the central part of Serbia, 172 km south of Belgrade and it occupies the area around the lower flow of the Ibar river and the middle part of the West Morava river flow.

The City is located at the altitude of 203-208 m. Kraljevo is an administrative, economic, educational, cultural, health and political centre of the Raska district. At the same time, it is a significant traffic centre of this part of Serbia, considering the fact that many important roads and railroads intersect here.

Today, Kraljevo has around 120000 citizens.

The territory of the City of Kraljevo is a cradle of Serbian state and culture. In the Middle Ages, this area was the centre of the Serbian state of Raska, which was ruled by the holy dynasty of Nemanjic. In the picturesque Ibar gorge, also called "The Valley of Centuries", many invaluable monuments have been preserved from that period, among which the monasteries Zica, Studenica (protected by UNESCO), Gradac and the medieval town of Maglic.

Apart from the rich cultural-historical heritage, Kraljevo also has the exquisite natural potentials for the development of all types of tourism: healthcare, recreational, rural, winter, hunting, fishing tourism and many others.

Prirodne lepote Sjeničko-Pešterske visoravni i raj za ciklo-avanturiste

Sjeničko-Pešterska visoravan je jedno od najlepših i najočuvanijih prirodnih područja u Srbiji i na Balkanu. Ova prostrana visoravan, koja se prostire na nadmorskoj visini od oko 1.200 metara, poznata je po svojoj surovoj i divljoj lepoti, ogromnim otvorenim prostranstvima, miru i tišini koji se retko gde mogu doživeti.

Pešter je često nazivan i „srpski Tibet“ zbog svojih širokih zelenih polja, vetrova koji oblikuju pejzaž i osećaja potpune slobode. U letnjim mesecima visoravan postaje idealno utočište od vrućina, dok je zimi bajkovita snežna oaza.

Prirodni biseri ove oblasti uključuju Specijalni rezervat prirode Uvac, poznat po impresivnim meandrima reke Uvac, brojnim pećinama i vidikovcima koji ostavljaju bez daha. U ovom području živi i najveća kolonija beloglavog supa na Balkanu – ptice grabljivice sa rasponom krila većim od 2,5 metra.

Okolinu krase i netaknute šume, čista jezera, bogati pašnjaci i staništa retkih biljnih i životinjskih vrsta. Ljubitelji prirode mogu uživati u brojnim aktivnostima na otvorenom – od kampovanja, posmatranja ptica i fotografisanja divlje prirode do aktivnog odmora sa dozom adrenalina.

The Natural Beauty of the Sjenica-Pešter Plateau – A Paradise for Cyclists and Adventurers

The Sjenica-Pešter Plateau is one of the most beautiful and best-preserved natural areas in Serbia and the Balkans. Stretching at an altitude of around 1,200 meters, this vast plateau is known for its rugged and wild landscapes, open horizons, and a silence rarely found elsewhere.

Often called the “Serbian Tibet,” Pešter is home to expansive green pastures, windswept plains, and an overwhelming sense of freedom. In summer, it’s a refreshing escape from heat; in winter, a magical snowy oasis.

A highlight of the region is the Uvac Special Nature Reserve, famous for its dramatic river meanders, caves, and scenic viewpoints. The reserve also shelters the largest colony of griffon vultures in the Balkans – majestic birds with wingspans over 2.5 meters.

The region is rich in pristine forests, crystal-clear lakes, lush pastures, and rare wildlife. Visitors can immerse themselves in nature with birdwatching, wildlife photography, or peaceful camping – or choose a more active, adventurous route.

Prijepolje- između reka i planina

Ušće Mileševke i Lima simbolizuje sve ono što se susreće i stapa na njihovim obalama-različite kulture, tradicionalnost i urbanost, netaknuta priroda, specifična gastronomska ponuda. Grad lociran između obronaka Jadovnika, Jabuke i Zlatara okružen je i sa četiri zaštićena područja.

Manastir Mileševa-datira još iz 13.veka, poznat po svojim freskama među kojima se ističe i jedna svetski poznata-freska Belog Anđela. Pre spaljivanja moštiju Svetog Save one su bile položene u manastiru Mileševi i danas se na lokacijama oko manastira mogu posetiti- Savina voda, Savin lakat i isposnice u kojima je boravio prvi srpski arhiepiskop i prosvetitelj.

Džamija u Hisardžiku- specifična jer se i njoj čuva rukom pisani Ku'ran star oko 400 godina. U selu u kome je džamija smeštena, Hisardžiku, možete probati „sиту” –jelo koje se vezuje isključivo za ovo mesto.

Slapovi sopotnice ili Sopotnički vodopadi kako ćete češće čuti da ih nazivaju meštani pružiće vam bajkovit prizor koji nećete moći da zaboravite.

Kamena Gora- planinsko selo poznato po dugovečnosti stanovništva i po svom najstarijem stanovniku- velikom Svetom boru starom preko pet stotina godina.

Prijepolje – Between Rivers and Mountains

The confluence of the Mileševka and Lim rivers symbolizes everything that meets and blends along their banks – diverse cultures, tradition and modernity, untouched nature, and a unique culinary offer. Located between the slopes of the Jadovnik, Jabuka, and Zlatar mountains, the town is also surrounded by four protected natural areas.

Mileševa Monastery – dating back to the 13th century, is renowned for its frescoes, most notably the world-famous “White Angel.” Before the relics of Saint Sava were burned, they were kept in this monastery. Today, nearby sites can be visited such as Savina voda (Sava’s Spring), Savin lakat (Sava’s Bend), and the secluded caves where the first Serbian archbishop and enlightener once stayed.

The Mosque in Hisardžik – unique for housing a handwritten Qur’an that is around 400 years old. In the village of Hisardžik, where the mosque is located, visitors can try “sita,” a traditional dish found only in this region.

Sopotnica Waterfalls – known locally as “Sopotnički vodopadi,” offer a fairytale-like scene that will leave a lasting impression.

Kamena Gora – a mountain village famed for the longevity of its residents and its oldest inhabitant – the Great Holy Pine (Sveti bor), which is over 500 years old.

ŽABLJAK

Žabljak se nalazi na sjeverozapadu Crne Gore, u srcu Durmitora, na 1450 m nadmorske visine, što ga čini najvišim urbanim naseljem Balkana. Okružen je sa 23 planinska vrha iznad 2200 m, 18 jezera i kanjonom rijeke Tare – najdubljim u Evropi. Danas ovdje živi oko 4500 stanovnika.

Mjesto je nekada nosilo naziv „Varezina voda“, po snažnom izvoru oko kog je i nastalo. Tokom vremena dobija ime „Hanovi“, a današnje ime Žabljak zvanično nosi od 1870. godine, kada je započeta izgradnja škole, crkve i kape-tanskog doma. Danas je ostala sačuvana samo Crkva Sv. Preobraženja.

Već u 19. vijeku, zahvaljujući prirodnim ljepotama i bogatstvu divljači i ribe, Žabljak je privlačio brojne posjetioce, posebno iz Italije. Tokom Drugog svjetskog rata, varošica je spaljena, ali se nakon rata intenzivno razvijala.

Danas je Žabljak centar zimskog turizma Crne Gore i simbol ekološke države. Upravo ovdje je Crna Gora proglašena prvom ekološkom državom svijeta, a Žabljak – njenom prijestonicom. Sa svojom netaknutom prirodom, planinskom ljepotom i toplinom domaćina, Žabljak nudi nezaboravan doživljaj tokom cijele godine.

Žabljak is located in northwestern Montenegro, in the heart of Durmitor, at 1,450 meters above sea level – making it the highest urban settlement in the Balkans. Surrounded by 23 mountain peaks over 2,200 m, 18 glacial lakes, and the Tara Canyon – the deepest in Europe – it is home to about 4,500 residents.

The town was once called “Varezina Voda” due to a strong spring around which the settlement grew. Later it became known as “Hanovi”, and in 1870 it officially received the name Žabljak, when construction of a church, school, and captain’s house began. Today, only the Church of the Transfiguration remains.

As early as the 19th century, thanks to its natural beauty and abundant wildlife and fish, Žabljak attracted many tourists, especially from Italy. During World War II, the town was burned, but rebuilt and grew rapidly.

Today, Žabljak is Montenegro’s center of winter tourism and a symbol of its ecological identity. It was here that Montenegro was declared the world’s first ecological state, and Žabljak named its capital. With pristine nature, alpine charm, and local hospitality, Žabljak offers an unforgettable experience year-round.

NIKŠIĆ

U srcu Crne Gore, između planina i mora, na oko 630 metara nadmorske visine, nalazi se najveća crnogorska opština - Nikšić. Opština, površine 2.065 km², čini 15% ukupne državne teritorije. Prostor na kojem se nalazi karakterističan je u svjetskim okvirima. Ljuti krš (karst), šest jezera, rijeke, ponori, pećine, vrele, visoravni, planinski vijenci dio su čarobne ljepote crnogorskog prostora, a dugu i značajnu istoriju predstavlja zavidan broj spomeničkog blaga: arheološka nalazišta, rimski spomenici, spomenici iz srednjeg vijeka i novog doba. Grad je 1896. godine dobio prvi urbanistički plan, u kojem centralno mjesto zauzima gradski trg. Danas je najveći i najljepši u Crnoj Gori. Okružuju ga moderni kafei, u kojima se njeuguje nikšićka tradicija i kultura. Nikšićani vole svoj grad njegujući i poštujući krilaticu „Dobri duh Nikšića“, koju mu dodijeli čuveni pjesnik Vitomir Vito Nikolić. Smisao za humor koji Nikšićani posjeduju zdrav je i podstičan: svako ko dođe u grad prihvata ga i razumije. Znatno dio površine opštine je ruralno područje sa katunima i selima, u kojima se živi na tradicionalan način. Proizvodi se organska hrana, koja čini bogatu gastronomsku ponudu. Domaća vina i rakija, skorup, sir, meso, povrće, voće, potočna pastrmka, a posebno jedan od zaštitnih znakova našeg grada, svjetski poznato Nikšićko pivo, čija je proizvodnja počela 1896. godine, učiniće da Vaš gastro užitak bude poseban.

TIVAT

Kada jednom provedete svoj odmor u Tivtu, to će za vas biti grad koji će vam uvijek nedostajati, grad u koji ćete željeti da se ponovo vratite.

Tivat kao najsunčaniji grad u Boki Kotorskoj, mnogo je više od lijepe razglednice s Jadrana.

Grad sunca i cvijeća, fešti i dobre zabave, plijeni šarmom koji vrijedi više i od njegove ljepote. Tivat se pamti i Tivtu se vraća.

Ovdje je život lijep, lagan, pravi mediteranski. Zabave ne nedostaje, jer Tivat je event destinacija, dom jedriličara i domaćin svjetskih regata. Zahvaljujući marinama Porto Montenegro i Luštica bay, već godinama se visoko kotira na mapi luksuznih destinacija.

Tri ostrva Krtoljskog arhipelaga- Ostrvo cvijeća, Stradioti i Gospa od Milosti- predstavljaju pravu riznicu prošlosti i savršen povod za krstarenje ovim dijelom zaliva.

It is the city of flowers and sun, celebrations and entertainment, whose charm is even more valuable than its beauty.

Life is nice and easy here, a true Mediterranean experience. There is plenty of entertainment because Tivat is an event destination, home to yachtsmen and world's regatta host. Thanks to Porto Montenegro and Luštica Bay, Tivat has been among top luxury destinations for years.

Three islands of Krstole archipelagos - The Island of Flowers (Ostrvo cvijeća), Stradioti and Our Lady of Mercy (Gospa od Milosti) - they are a treasury of the past and a perfect motive for a cruise along this part of the bay.
